Stroke 9

Oh you were with me
It couldn't get much better
We're together
And it's times like these
That make me light as a feather
Yeah we're together

But there's someone on my left
Someone on my right
Someone in the way of how I feel inside
It doesn't take much more
Just strip it to the core
And you'll feel life
Yeah

Oh each day is
A star in our sky
When we're together
And every time
You pass before my eyes
Forever

There's someone on my left
Someone on my right
Someone in the way of how I feel inside
It doesn't take much more
Just strip it to the core
And you'll feel life

There's someone on my left
Someone on my right
Someone in the way of how I feel inside
It doesn't take much more
Just strip it to the core
And you'll feel life
Yeah, Yeah
