

## Stumbling In

Stroke 9

I was long gone before I went away  
I didn't have what it takes, but there was something in your eyes  
Struck out when you walked in  
Blacked out in a tailspin, yeah  
I wasn't thinking right that night  
This won't be the first time it's crashing on me, yeah  
Know someday you're gonna find  
A place to rest your weary mind, but when? But when?

Now I'm standing in the light  
Can't you see the stars shinin' bright for you?  
Standing in the light  
And that's the best I'll ever do

Well, I'm not scared anymore  
Like the time before  
All I ever wanted were those simple things in life  
Nothin' more, nothin' more  
[?] on a 442  
Swallowin' pills just to see what they do, yeah  
Stumblin' in, stumblin' out  
It was all over when you started to shout, hey! Are you hearin' me now?

Now I'm standing in the light  
Can't you see the stars shinin' bright for you?  
Standing in the light  
And that's the best I'll ever do

Yeah, it's all we can scream about for a minute  
Life's what I dream about with you in it  
Don't walk away, what's left to say

Now I'm standing in the light  
Can't you see the stars shinin' bright for you?  
I'm going to make this right  
If it's the last thing I ever do
