

## Between Love & Hate

The Strokes

Watched her as she wiped her eyes  
You don't make me sorry  
Now I know that you never listened, listen

Thinkin' 'bout that high school dance  
Worrying about the finals  
Yes I know, you're feelin' lonely, oh lonely, so lonely

Never needed anybody, I never needed anybody  
I never needed anybody, I never needed nobody  
Don't worry about it, honey, yeah, I never needed anybody  
I never needed anybody, it won't change now

Am I wrong?  
Don't sing along with me  
I said I was fine  
It's just the second time we lost the war

She'd be in the kitchen, I would start the fire  
Oh, those days are gone  
But you know I can't give up, give up

P.S. if I may ask why, when will they get tired?  
We stayed up  
All night tryin', tryin'

Never needed anybody, I never needed nobody  
I never needed anybody, I never needed anybody  
Don't worry about it, honey, yeah, I never needed anybody  
I never needed anybody, it won't change now

Am I wrong?  
Don't sing along with me  
I said I was fine  
The second time we lost the war
