

# Killing Lies

The Strokes

Say a prayer now  
Don't be scared now  
You don't want trouble  
We might get some  
We might get some  
It's troublesome  
But don't you worry  
You can help me

Killing lies  
Killing lies  
Killing lies  
Killing lies

First you're worried  
Then you're hurried  
Don't think that everything is gonna stay the same  
That's impossible  
Before I let you go  
Let me look at you  
Don't you worry  
You will help me

Killing lies  
Killing lies  
Killing lies  
Killing lies

Oh yes I know you're still  
Oh yes I notice you  
You are a friend of mine

You are a friend of mine
