

Unchain me
It's not my midnight yet
Act like a fox but think like a sheep. Wall Street
Unchain me
Cause this is my bank's advice
We're gonna give it back to you, some other day

Take off from the runway
Thinking of a sad day
Racing down the highway
Looking at me sideways

What side you standing on?
What side you standing on?
What side you standing on?
What side you standing on?

Unchain me
It's time
I know the way uptown
Unchain me
I'm waiting for the time
Get you with your pajamas on

Take off from the runway
Thinking of a sad day
Playing with his new toys
Looking at the sad boys

What side you standing on?
What side you standing on?
What side you standing on?
What side you standing on?

And we take
What we like from them
And then say:
"What do you want from me?"

Don't wait so long
Way too long
They wait too long
I can't stay awake too long
You never wait for some
Other generation
I'll wait somewhere alone
Get it in your head
Get out of my way

What side you standing on?
What side you standing on?
What side you standing on?
What side you standing on?
What side you standing on?
What side you standing on?
