

## Never On The Radio

Stuck in the Sound

Well I'm so tired,  
How long?  
I've been around for trouble,  
A new kind of Liar,  
A liar, a liar, a liar....  
Try again and next time.  
Make me wild

Or you'll never  
be on the radio!  
Liar liar  
Liar liar!

Transistors on fire  
Come on!  
You know you can't deny this.  
And you come  
A liar, a liar  
A liar, liar....  
try and the next time  
Make me wild

Or you'll never  
be on the radio  
Liar liar  
On the radio  
Liar liar  
On the radio  
On the radio!

Please believe me it never ends  
You 've got a lovely machine!  
I know you watch behind the waves  
you're just a whistle unadvised  
You're just a,  
My favorite song  
You're just a,  
My favorite song...

Never, never, never, never!  
Liar, liar,  
On the radio  
Liar liar,  
On the radio...
