

# Molly The Murderer

Sturm und Drang

Legend

As the night begins to raise  
An ambush waiting for the pray  
Going shoot me cold blood  
Cave in  
As I admit the crime is mine  
Though we both crossed the line  
My friend

Still you murder me  
Yeah, you murder me  
Still you murder me  
With your lies

Baby, baby you murder me  
Baby, baby you murder me  
Your weapons are words  
Kills us when heard  
They murder me  
If you try to assassinate me  
You're doing it perfectly  
Take a good look at me  
I take your bullet for free  
With no alibi  
Molly, you murder me

Crazy

Thinking you will never change  
The nights will always be the same  
You and I  
I wanna change this  
If only you will let me  
But baby you don't get this  
You don't even try

Instead you murder me  
Yeah, you murder me  
Still you murder me  
With your lies

Baby, baby you murder me  
Baby, baby you murder me  
Your weapons are words  
Kills us when heard  
They murder me  
If you try to assassinate me  
You're doing it perfectly  
Take a good look at me  
I take your bullet for free  
With no alibi  
Molly, you murder me

Your tribe I fight  
Just wait to drown  
No loses like this just waiting for dead  
Cos' I'm the only one  
It's just an another one of your lies

You murder me  
Murder me

Baby, baby you murder me  
Baby, baby you murder me  
Your weapons are words  
Killing when heard  
They murder me  
If you try to assassinate me  
You're doing it perfectly  
Take a good look at me  
I take your bullet for free  
With no alibi

Weapons are words  
Kills us when heard

You murder me
