

Life's Disease

Stutterfly

I feel so numb.
All I've become, has fallen apart.
Hole in my heart,

Severed fragments of my being
Pieced together give life meaning.
Fragile quilt of faded memories
Torn apart by life's disease again
I will cry, all is a lie,
That we must break,
Heal my heartache.

Severed fragments of my being
Pieced together give life meaning.
Fragile quilt of faded memories
Torn apart by life's disease again
Life's disease again
Life's disease again

Severed fragments of my being
Pieced together give life meaning.
Fragile quilt of faded memories
Torn apart by life's disease again

Severed fragments of my being
Pieced together give life meaning.
Fragile quilt of faded memories
Torn apart by life's disease again
I will cry
