

Bubble Up

Styles P

Long time coming out the gate (had the golden key)
Whole squad waitied for the plate (now it's time to eat)
Heard them haters praying that we fall nigga (fall a nigga)
Extra clips when we go to war with 'em (go to war with 'em)
Stay on your shit you gon' bubble up (bubble up)
When you on lit you gon' double up (double up)
Heard them haters praying that we fall nigga (fall a nigga)
Extra clips when we go to war with 'em (go to war with 'em)

Stay on your shit you gon' bubble up
We was all poor but we squad so we huddled up
If it ain't a bullet or the law it don't trouble us
High doin' dirt but I'm hopin' the Lord cover us
Uptown doin' it downtown doin' it out of state pursuin' it
A shot from a Glock may ruin it
All I think about is who I drink this King Louis with
My niggas my man Swizz from The Jungle but it seems the seems that money con
tain G's
Told the plug make the call whenever the plane leaves
Feel joy from the money whenever the pain leaves
But the pain never goes
Money is the root of all evil and I'm not sayin' for the flow insane for the
flow
But this the fast life and the lane never slows Mary Jane for the dome, ghos

When you on lit you gon' double up
Knew its everything to her everything, cuddled up
Got to work, blew up everything, now they fuck with us
Long but it seem fast like we shuttled up
Tuna in the can to that lobster buttered up
Now I eat plants and plan to plant some
Plannin' to stamp something in niggas can't fuck it up
'Cause we ain't golden untill we all shine
Guess my ghost live more than one lifetime
Four left turns I'm in my right mind
Flyin' to Tiffany's from kicking While I was hitting trees and thinking of v
ictories
Turned a nick to a dime and bought me a nick of weed
Made me a little rhyme planted a little seed
Tomorrow's ghost night today is ghost eve
So I told my ghost, "Go flow proceed"

Rather peace I don't wanna go to war with 'em
If I had to swear to God I'd give it all to 'em
Know the feeling my nigga I've been poor with 'em
But they can't walk on me I'm not a floor for 'em
Only God knows what He has in store for 'em
Lord doeth as He shall and that's all for 'em
