

You see it?

OK, see it?

Right in this position here, straight ahead, in between the tree- there it is again!

Watch, straight ahead off the flash back there sir. There it is
Yeah I see it too

It's right on the horizon. It's as though there was an eclipse
or something there for a minute or two

It's now turning a full circle

OK we're looking at a thing about two or three hundred yards away. It looks like an eye... It appears to be moving a little bit this way. It's brighter than it has been

It's coming this way, it's definitely coming this way
