

The vampire in me is alive and I'm on the hunt tonight for
This time I'll never, never die
I'll take back what's mine tonight
Though you had got the best of me
I'm back now from the dead
Once deceived but now alive
I'll take back my rights tonight
You thought that you had killed me
Didn't know what you'd create
You thought that you had killed me
I've risen from this grave
The werewolves tonight are howling
"It's time for one more final meeting"
They're in us and we are screaming
"It's time for one more final meeting"
We'll call your bluff cause we can smell you
Aroma of the nightwe met you
But this time we'll never, never die
We'll take back what's ours tonight
You thought that you had killed me
Didn't know what you'd create
You thought that you had killed me
I've risen from this grave
We will prosper
