

# Don't Wanna Wait

## Suburban Legends

A thousand miles since yesterday  
Looked in your eyes, I thought you'd beg me to stay  
You said it won't be long until I'm in your sweet  
embrace

But still want you here with me

[Chorus:]

So far away, I don't wanna wait  
Just to see you smile or to hear you say  
That your still there, you haven't gone away  
That your here to stay with me

Now I don't wanna wait

Wish I could say this is the last time

That you'll have to see me go away

Promises were meant to be broken

When we go our separate ways

When I leave, yeah, it might be wrong

But I know you won't forget

That still want you here with me

[Chorus]

Too many times I've crossed this bridge  
Just to stand and watch it burn to nothing

When I close my eyes I feel your breath

To hear your voice its calling out to me

So far away, I don't wanna wait

Just to see you smile or to hear you say

[Chorus]

I don't wanna wait
