

Getting Down to Business

Suburban Legends

I'll take you to my home
Get your ass in my house
I'm gonna do everything to you
Short of turning you out
Yeah
If we stop, if we go
I don't think I really know
I'm jonesing for your body
So come on lets get naughty tonight
Yeah, yeah, yeah, yeah
You, I've been needing for quite some time
To be with you, I would be so inclined
And tonight we're gonna
Dance the night away, yeah
Cuz we're getting down to business
This is the business of getting down
Whoa, getting down
(Come on)
Put on your red dress
Just like I knew you would
Watch out baby it's coming on fast
That part I think you understood (understood)
I'll pick you up, we'll go to the show
I buy you dinner and then you know
You're gonna pay me back we get home
When we get home (what you talking about paying you
for?)
Ooh, shut your mouth (what you gonna do to me?)
The night is getting longer, the party's getting hot
Got the camcorder hidden so the neighbors can watch
Cuz she's telling all her friends
Yeah, I'm telling all my friends
Cuz we're (Getting down)
(Getting down to business)
This is the business
(This is the business)
Of getting down
(Getting down)
Whoa, getting down
(Getting down)
Getting down to business
This is the business
Getting down to business
Getting down, getting down to business
Getting down, getting down, we're getting down
Getting down to business
Getting down to business
The deed is finally done, so get out of m house
My girlfriends on her way, she didn't know I went out
Your stripper glitter on her pillow is gonna my her
scream and shout
Now you're telling all your friends
Yeah, I'm telling all my friends
