

Streaker

Sugar Ray

Your throwin' sticks and stones
And your breakin' my bones man
Hey, I can see you got to leave it alone

Your trying hard, pushing hard
Drawing hard, pushing harder
But I'm smartest, I want you to know this

You gotta get down if you want to hang around
You gotta get down if you want to hang around
You gotta get down if you want to hang around
And if you want to hang around you gotta get down

What ever happened to girls that were freakin'
Everybody was drinking, it was no big thing then
If I had the choice I'd bring it all back
Everybody's talkin' bout me gonna blow my stack

You gotta get down if you want to hang around
You gotta get down if you want to hang around
You gotta get down if you want to hang around
And if you want to hang around you gotta get down

Kids around the bowl in a chalk like hammer
G-string on my ass so my cheeks are getting tanner
And now I'm into James Brown in a Burt Reynolds pose
Socks on my feet you know I got ugly toes
Motherfucker I'm Mark, with a K not a see
And what am I face down get a ride from McG

You gotta get down if you want to hang around
You gotta get down if you want to hang around
You gotta get down if you want to hang around
And if you want to hang around you gotta get down

You gotta get down if you want to hang around
You gotta get down if you want to hang around
You gotta get down if you want to hang around
And if you want to hang around you gotta get down
