## **First Band**

Sugarcult

Turn up your stereo I'm coming in loud and clear Making it with your girlfriend You never knew she was here

We're gonna be the first band on the moon Breaking every rule that rings in tune I'm staring back on the earth and I don't like what I see I'm gonna fall into hell with the radio this way And you want to hate me, but you cant deny...you're in love

Turn on your television It's you you want to see You've got your own freak show And were the stars this week

We're gonna be the first band on the moon Breaking every rule that rings in tune I'm staring back on the earth and I don't like what I see I'm gonna fall into hell with the radio this way You want to hate me, but you cant deny you're in love

We're gonna be the first band on the moon We're breaking every rule that rings in tune We're gonna be the first band on the moon I'm staring back on the earth and I don't like what I see I'm gonna fall into hell with the radio this way You want to hate me but you cant deny it...you're in love You want to waste me but you cant deny it...you're in love You want to hate me but you cant deny it...you're in love
