

Feel the atrocity, human decay  
Religious damnation for all those who stray  
Time to stand up, we'll set our mark  
To lead a free life, we will attack

We rise against demons, we rise against God  
There's nothing beyond us, it's only just us  
We fight for our right to live without lies  
We curse all the priests who play with our lives

Destroy your religion  
Decide your own fate  
United we are  
To show them our hate

Feel the atrocity, human decay  
Religious damnation for all those who stray  
Time to stand up, we'll set our mark  
To lead a free life, we will attack

Destroy your religion  
Decide your own fate  
United we are  
To show them our hate  
Nothing will break us  
We will stand fast  
The end of oppression  
We're free at last
