

Church Unrules

Suicidal Angels

So sacrifice the bastards who damned you to live
chased by your dreams which turned into nightmares
cloudy sky smell of death
lying on the ground i live in hell?
promises from god for eternal life
words from priests for peace and quiet
blood of christ is tasted by wine
but priests want you drunk to die
spill the purest blood (4x)
forced to go to church
forced to pray to lord
i give you my curse
to live and believe
sweet words from priests (2x)
spill the purest blood (4x)
forced to go to church
forced to pray to lord
i give you my curse
to live and believe
sweet words from priests (2x)
spill the purest blood (4x)
