

# Cold Blood Murder

## Suicidal Angels

Moral compass of control  
There is no need to struggle  
It doesn't lead to anywhere  
It's time for you to suffer  
I push the needle  
Deep it goes  
Liquid starts to flow  
Can't control the dizziness  
The last act of the show

The world of lies, the face of death  
The world of lies, I need your flesh  
The world of lies, your soul is mine  
The world of lies, I am cursed divine

Cold blood murder

Coming back to rip your life  
Sharpened blade mirrors your eyes  
It's something that you need to see  
Killing is my destiny

The world of lies, the face of death  
The world of lies, I need your flesh  
The world of lies, your soul is mine  
The world of lies, I am cursed divine

Cold blood murder

Take 'em all!

It's burning as the fire  
Hellish cross denial  
He rises from the ashes  
This is the great return

The world of lies, the face of death  
The world of lies, I need your flesh  
The world of lies, your soul is mine  
The world of lies, I am cursed divine
