

## Division of Blood

### Suicidal Angels

Mother war is feeding me  
Once again to survive  
Throw down your guns, lay down your souls  
What keeps you think you'll be alive  
Do you believe your precious god  
Will save you from the fire  
I set the rules, you play the game  
You little kid, you filthy liar

Death, fire, we are the division of blood  
Death, delivering fire, we are the division of blood

I'm born and raised in the shadow dust  
Let's play the seek and hide  
I Follow back your lithium smell  
Dizzy brain can't hold it tight  
You still believe your stupid god  
Is here to save your life  
I tell you a secret you're all alone  
Kneel down you dog, i'm cursed divine

Death, fire, we are the division of blood  
Death, delivering fire, we are the division of blood

Under blackened god  
Division of blood  
Raise the flag  
Division of blood

Father god forgive me please  
When death comes to me ripping  
Can't stand this fight, no more this hell  
To hear the clock that's ticking  
Before the time has come to say  
The last words of my prayers  
Raise me in to the hands of doom  
Relief me of the betrayers

Death, fire, we are the division of blood  
Death, delivering fire, we are the division of blood

Under blackened god  
Division of blood  
Raise the flag  
Division of blood
