

Order of Death

Suicidal Angels

I deliver evil, I spread the seeds of blackness upon the heads of feeble
I deliver evil, lurking in the dust and shadows in hearts of demons
I am he that conquers all the son of men
Deliverance, salvation mine once again
Come on dear king it's time to leave your crown
Away from your throne, lay your sceptre down

Half step living
Life deceiving
It is the order of death
Eyes start bleeding
Cant help breathing
It is the order of death

I deliver darkness,
Far beyond the limits into the sense of madness
The path is clear, I see your tears
Justice?
Fuck this
I deliver darkness

Half step living
Life deceiving
It is the order of death
Eyes start bleeding
Cant help breathing
It is the order of death
Cry out
Scream it loud
It is the order of death
I command
You follow
It is the order of death

I placed a target on your back
I siege your blood with fever
Every drop diseased or not
In to the wind like feather
A scratch of nails on the wall
Will be there to remind you
Escaping from reality
You leave the world behind you
I am he that conquers all the son of men
Deliverance, salvation mine once again
Come on dear queen it's time to leave your dress
This is the end of times, your sins now to confess

Half step living
Life deceiving
It is the order of death
Eyes start bleeding
Cant help breathing
It is the order of death
Cry out
Scream it loud
It is the order of death
I command

You follow
It is the order of death

The path is clear, I see your tears
Justice?
Fuck this
I deliver darkness
