

## Skinning The Undead

Suicidal Angels

Darkness fallen upon the earth  
One more frightful night  
No time to face reality  
Illusions feel your sight  
Deep inside your fears alive  
Evil creates its form  
Shadows hidden in your mind  
You wish you're never born

Your life now seems meaningless  
Soon you'll follow me  
Immersing in my darkest hopes  
You'll see divinity  
Never will you see the light  
Reveal your inner self  
Sarcastic faces smiling while...

Skinning the undead

Come on priest and join them  
There's pleasure in their pain  
Pick up the knife and feel the blood  
To cleanse your holy brain  
They are so weak and fearful  
Stagnant floating remnants  
Now taste the holy blood

Your life now seems meaningless  
Soon you'll follow me  
Immersing in my darkest hopes  
You'll see divinity  
Never will you see the light  
Reveal your inner self  
Sarcastic faces smiling while...
