

Death Lies Waiting

Suicide Commando

Life is falling down
Falling in, I'm gonna drown
The end is near
Face down to the ground
When life just takes my body down
Come and take my fear

Time is running out
I'm breathing in, I'm breathing out
My mortal fear
Falling down to the ground
When life escapes shutting down
Come and take my fear

Come and take my fear
Come and take my fear

Death lies waiting
I'm dying, dying

Death lies waiting
Death lies waiting
I'm dying, dying
Death lies waiting

Look at what is left of me
When life becomes your enemy
Please take my fear
When life starts cracking down
I'm coming in, I'm coming down
I disappear

Death lies waiting
I'm dying, dying

Death lies waiting
I'm dying, dying
Come and take my fear
Death lies waiting
I'm dying, dying
Come and take my fear

Death lies waiting
I'm dying, dying
