

## Too Far Gone

### Suicide Commando

Tell me, why did you leave me, baby  
Tell me, what I've done  
The blood stains on the doorway, baby  
The silence now you're gone

You're just too far gone  
You're just too far gone  
You're just too far gone  
You're just too far...

Tell me, why did you hurt me, baby

Tell me, when you're done  
A gunshot and your screaming, baby  
The power of my gun

You're just too far gone  
You're just too far gone  
You're just too far gone  
You're just too far...

Tell me, why did you leave me, baby  
Tell me, what I've done  
The blood stains on the doorway, baby  
The silence now you're gone

You're just too far gone  
You're just too far gone  
You're just too far gone  
You're just too far...
