

We Are Transitory

Suicide Commando

I'll bring you death
I'll burn you down
I'll bring you war
The end of time
Conquest of evil and famine
Bring on the horses
Let them in

The apocalypse will soon defeat us all
The apocalypse will soon destroy us all

We are transitory
We rise and we fall
We are temporary
Arise and then we fall

I'll bring disease
I'll take you down
I'll bring you war
The end of time
Conquest of evil and famine
Bring on the horses
Let them in

The apocalypse will soon defeat us all
The apocalypse will soon destroy us all

We are transitory
We rise and we fall
We are temporary
Arise and then we fall
