

# Thanks for Nothing

Sum 41

I'll never take part in the grown population  
Or waste my time with further education  
To get what we know, is just a big show  
Where they want to control  
So chained and frustrated  
It's all so complicated  
Fashion, no passion surrounds me

All I know is I've heard this all before  
Reality's a bore (is a bore)  
You ask me to believe it (never believe)  
Something they provide  
Can't bring myself to, do what  
You want me to (want me to)  
This is who we are and (who we are)  
nothing's gonna change, nothing's gonna change

I can't take part in the business revolution  
Or take my chance in the real world confusion  
Don't blame us, who do we trust when they're so dis-a-honest  
No patience, this nation's obsessed with exploitation  
Lying, denying surrounds me

All I know is I've heard this all before  
Reality's a bore (is a bore)  
You ask me to believe it (never believe)  
Something they provide  
Can't bring myself to, do what  
You want me to (want me to)  
This is who we are and (who we are)  
Nothing's gonna change

(what!) Don't think you can ignore us (ignore us)  
Don't tell me your word is right (word is right)  
Don't pick a future for us (for us)  
We lack 'cause we're involved!!

All I know is I've heard this all before  
Reality's a bore (is a bore)  
You ask me to believe it (never believe)  
Something they provide  
Can't bring myself to, do what  
You want me to (want me to)  
This is who we are and (who we are)  
Nothing's gonna change

Thanks for nothing (I've heard this all before),  
Thanks for nothing (reality's a bore),  
Thanks for nothing (it'll never be the same),  
Thanks for nothing (and nothing's gonna change)
