Summer Walker

You got potential, you got, you  
You got potential, you got, you  
You got potential (Potential, yeah, yeah)  
You got potential, you got, you

Had a few niggas ride or die for me  
Tell me, baby, will you slide for me?  
Keep the Glock 40, holding it down for me  
I know you're good in the hood, bust a couple juugs for me, yeah  
h  
When I'm on the low, will you still cover for me?  
Blowin' bands to make me feel lovely  
When I'm gone, will you still think of me?  
I need to know for sure

'Cause you got potential, you got, you  
You got potential, you got, you  
You got potential (Potential, yeah, yeah)  
You got potential, you got, you

Caught my interest, talkin' that shit  
So intriguing (Yeah, yeah)  
We could go far, go the distance  
I could see it (Yeah)  
I'm not tryna be out here with my hopes up  
If you all for me, then let me know what's up  
Don't change up on me in the long run  
Keep it open, one hunnid

'Cause you got potential, you got, you  
You got potential, you got, you  
You got potential (Potential, yeah, yeah)  
You got potential, you got, you
