

Like a Killer

Sumo Cyco

I've been losing my sanity
need to escape the tragedy
my mind won't rest easy
since I've been on the run

all I know is I've been guilty
of lettin' those demons get to me
can't eat can't sleep can't think can't breathe
since I've been on the run

wake up wake up wake up girl
what'cha doin' with your life?
don't'cha know your wrong from right?

wake up wake up wake up girl
what'cha doin' with your life?
don't'cha know your wrong from right?

lookin' for answers not there to find
meanwhile you're fallin' for my disguise
I'd kill for your love and you'd die for mine

I've been on the run like a killer
I've been on the run like a killer

I've been banished broken bruised
blame no one it's the life I choose
danger criminal on the loose
since I've been on the run

haunted hurtin' everyday
gotta get up monsters to slay
maybe I'm just not ok
since I've been on the run

wake up wake up wake up girl
what'cha doin' with your life?
don't'cha know your wrong from right?

wake up wake up wake up girl
what'cha doin' with your life?
don't'cha know your wrong from right?

lookin' for answers Not there to find
meanwhile you're fallin' for my disguise
I'd kill for your love and you'd die for mine

I've been on the run like a killer
I've been on the run like a killer

check
hello? check?
check one
hello?
is anyone listening?
check one two three

criminal criminal I'm a little sick of it all
livin' like an outlaw
tryin' a get by
tryin' to survive
just a girl in the world
wanna live my life!

criminal criminal why so cynical
let's get clinical mental psychosis
I'll be the hostess
serving up hearts on a plate
I can't believe you ate!

criminal criminal what'cha gonna do with all my trespasses
half empty glasses
no passes time to take classes
I'm gonna bring this thing to the masses

wish to confess get this off my mind
no one here no one to confide
I keep runnin' into a bind
searchin' for answers I just can't find

lookin' for answers not there to find
meanwhile you're fallin' for my disguise
I'd kill for your love and you'd die for mine

I've been on the run like a killer
I've been on the run like a killer

lookin' for answers not there to find
meanwhile you're fallin' for my disguise
I'd kill for your love and you'd die for mine

I've been on the run like a killer
I've been on the run like a killer
