

Move Mountains

Sumo Cyco

Come swing with the best, let me take aim
Pound in your chest, no this ain't no game
Lost all your breath when the moment came
We came to rock with it, rock with it

Take charge on this barge, I'm a renegade
Sail through the streets like we're on parade
Beats on repeat and the Earth parts ways
We say just rock with it, rock with it

You hear me singin' my song
You hear me singin' my song
You hear me singin' my song
You hear my singin'

I can move mountains, I can move mountains
I can move, I can move, I can move mountains
I can move mountains, I can move mountains
I can move, I can move, I can move mountains

I can move mountains, I can move mountains
I can move, I can move, I can move mountains
I can move mountains, I can move mountains
I can move, I can move, I can move mountains

Move ya boy can't standin' in my way
No, standing in my way 'cause you'll live today
So boy, you wanna feel it? No
No then back up now, lemme tell ya

You're dead to me, you're history
I'm a sea, and you're gonna drown in me
So boy, go ahead move out the area
You're at the ol' night club every night and day

You hear me singin' my song
You hear me singin' my song
You hear me singin' my song
You hear my singin'

I can move mountains, I can move mountains
I can move, I can move, I can move mountains
I can move mountains, I can move mountains
I can move, I can move, I can move mountains

I can move mountains, I can move mountains
I can move, I can move, I can move mountains
I can move mountains, I can move mountains
I can move, I can move, I can move mountains

I can make the ground shake, winds blow
Earth quake, rain, snow

Mountains, I can move mountains

I can make the ground shake, winds blow
Earth quake, rain, snow

Make your ear shake, minds blow
Rules break, get low

Make the sea part, riptide
Ice melt, landslide
Make the room jump, freak show
Bass thump, stop, go

I can make the world rock with my mind
I can make the world rock with my mind
I can make the world rock with my mind
I can make the world rock with my mind

You hear me singin' my song
You hear me singin' my song
You hear me singin' my song
You hear my singin'

I can move mountains, I can move mountains
I can move, I can move, I can move mountains
I can move mountains, I can move mountains
I can move, I can move, I can move mountains

I can move mountains, I can move mountains
I can move, I can move, I can move mountains
I can move mountains, I can move mountains
I can move, I can move, I can move mountains

I can move mountains, I can move mountains
I can move, I can move, I can move mountains
I can move mountains, I can move mountains
I can move, I can move, I can move mountains

I can make the ground shake, winds blow
Earth quake, rain, snow

Mountains, I can move mountains
