

My Name Is Rock n' Roll

Sumo Cyco

Walking down the street
Staring at my feet
Don't know why I don't feel complete
Can't escape this winding maze

Following the crowd
Don't make a sound
Power through with your head down

If one day I don't get closer to breaking down ...
???

What will it take
To become free?

Let go of yourself
I'm gonna make you believe

My name is, My name is, My name is rock and roll
My name is, My name is, My name is rock and roll!
My name is, My name is, My name is rock and roll
My name is, My name is, My name is rock and roll!

Go!

Open my eyes
To the bright lights
Blinded but it feels so right
I let him control
All of my soul
Take over
He's got a hold
Haven't fallen yet
Got me good in your debt

My name is, My name is, My name is rock and roll
My name is, My name is, My name is rock and roll!
My name is, My name is, My name is rock and roll
My name is, My name is, My name is rock and roll!

This is more than a confession
The world will rise
To the sound of a generation
With open eyes
So release your inhibitions
And break all ties
And you'll leave it all behind

My name is rock and roll
My name is rock and roll
My name is rock and roll
My name is rock and roll
My name is rock and roll!

My name is, My name is, My name is rock and roll
My name is, My name is, My name is rock and roll!
My name is, My name is, My name is rock and roll

My name is, My name is, My name is rock and roll!
My name is, My name is, My name is rock and roll
My name is, My name is, My name is rock and roll!
My name is, My name is, My name is rock and roll
My name is, My name is, My name is rock and roll!

My name is rock and roll!
My name is rock and roll!
My name is rock and roll!
My name is rock and roll!
