

# Don't Walk Away

Sunshine

Zodiac in ruins, the stabs of fate  
don't look in the mirror, it's not too late  
I whisper come with me, I know the way back home  
We are two cold bodies wrapped in the ocean's foam  
Don't let your fears tear us apart  
and listen to the click of your heart  
I want split into pieces, you're dragging me down  
Underneath the night sky, you're taking me down

I said don't walk away, will find the way back home  
coz we both want-hand in hand-to catch the sunlight chrome  
please - don't make a scene, we won't be late tonight  
please - don't make a scene just turn off the light

I want to split into pieces..

I wish your love could release me, let me go  
I wish your love would erase me, let me go  
I want the split into pieces, you're dragging me down  
Want you to stick around, want you to stick around!

I said don't walk away, will find the way back home  
baby, don't turn away, baby, don't turn away  
coz we both want-hand in hand-to catch the sunlight chrome  
baby, don't turn away, baby don't!
