

Sunshine - Venom

You start at the end and end up nowhere  
counting the numbers from ten to zero  
half dead man, somewhere in wasteland  
missing the point, dead plan, blind hero

I'm counting the numbers  
from ten to zero  
now - i'm counting the numbers  
from ten to zero  
now - i'm counting the numbers  
from ten to zero  
No need to be tame  
No need to be tame !

CHORUS :

I tried to set my brain on fire  
levitate and listen to "Death In June"  
shivering hands, the wolf is a liar  
silver and gold, head on the Moon.

Can you really see all the stitches?  
The sky above is full of scars  
welcome to hell, god bless all you bitches  
enemies are firends, friends moved to Mars

I'm counting the numbers  
from ten to zero  
now - i'm counting the numbers  
from ten to zero  
now - i'm counting the numbers  
from ten to zero  
No need to be tame  
No need to be tame!

CHORUS :

I tried to set my brain on fire  
levitate and listen to "Death In June"  
shivering hands, the wolf is a liar  
silver and gold, head on the Moon.

Am I counting the numbers from ten to zero?  
Am I counting the numbers from ten to zero?  
Am I counting the numbers from ten to zero?  
Am I counting the numbers from ten to zero?

CHORUS :

I tried to set my brain on fire  
levitate and listen to "Death In June"  
shivering hands, the wolf is a liar  
silver and gold, head on the Moon.
