

# Calling

Sunstorm

I cannot overcome  
the problems I see all around  
In this empty world we live in, no  
The shadows of the past didn't let us reach the light  
We searched so long through darkness and despair

Face the sun  
Don't let our lives fade away  
Live to win  
I'm not ready for judgement day

Can you hear me calling  
We're crawling in the dark  
How can I stop the fall and leave my mark  
Can you hear me calling  
Just a step away from falling down  
We can disappear today without a sound  
Hear me calling

Do you feel the same  
Can you feel it coming down  
The road is slipping under our feet  
Where will we go?

Face the sun  
Don't let our lives fade away  
Live to win  
I'm not ready for judgement day

Can you hear me calling  
We're crawling in the dark  
How can I stop the fall and leave my mark  
Can you hear me calling  
Just a step away from falling down  
We can disappear today without a sound  
Hear me calling  
Hear me calling

Can you hear me calling  
We're crawling in the dark  
How can I stop the fall and leave my mark  
Can you hear me calling  
Just a step away from falling down  
We can disappear today without a sound  
Hear me calling  
Can you hear me  
Hear me calling  
Can you hear me calling
