

Heart Over Mind

Sunstorm

She was my only right
Shining it hot and white
Now she's gone away
Oh, the tricks the mind can play

I can't forget her
Hard as I try
I keep telling myself
It's just a matter of time
But it's heart over mind

Levitating in my room
Every thought is trained on you
Spirits calling
I'm still falling

I can't forget her
Hard as I try
I keep telling myself
It's just a matter of time
But it's heart over mind

Heart over mind
Heart over mind

I can't forget her
Hard as I try
I keep telling myself
It's just a matter of time
But it's heart over mind

Heart over mind
Heart over mind
