

You Hold Me Down

Sunstorm

You have no fear for tomorrow
You feel no pain and no sorrow
Never got tired to hesitate
You just don't panic you only celebrate
Something familiar

Something's change ain't this peculiar
Gotta stop it or it will never end

Don't hold me down
All you do is take me with you
Bring me to the ground
Don't run away
You recognize the healing sound [?]
Don't hold me down
Yeah yeah
You hold me down
Ohhh yeah

Nothing's not enough for me to
All I know is what you made me do
You can't control the darkness at your side
They are helping to conquer and possess
Something familiar

Something's change ain't this peculiar
Gotta stop it or it will never end

Don't hold me down
All you do is take me with you
Bring me to the ground
Don't run away
You recognize the healing sound
Nothing on your way
Don't hold me down

Gotta stop this
Gotta stop this or it will never end
Don't hold me down
All you do is take me with you
Bring me to the ground
Don't run away
You recognize the healing sound
Nothing on your way
Don't hold me down

Oh you hold me down
You hold me down
You hold me down
Oh
