

## Animated Airplanes Over Germany

Superchunk

Well, I'm getting good at sleeping on planes  
But I'm suffering more than a jagged time change  
Not to say you're not a gracious host  
But the cold water here is colder than most

Pull down your mask  
Reach down under your feet  
Call me one last time  
From the phone in your seat

Yeah, the cold water here is colder than most  
Sometimes I think there's only one warm place in this world  
It's under the flag of your love unfurled

Trace your finger down this map  
Well, is it relief?  
From this height everything looks flat  
Now, that I believe

Pull down your mask  
Reach down under your seat  
Buy the stewardess wine  
Drink some for me

Sometimes I think there's only one warm place in this world  
It's under the flag of your love unfurled

He thought he saw his life flash between his knees  
On an animated airplane over Germany  
He thought he saw his life flash between his knees  
On an animated airplane over Germany

He thought he saw his life flash between his knees
