

## Does Your Hometown Care?

Superchunk

When you came back to this town  
You brought this weather with you  
A silver sun that wont go down

They grabbed you by the belt  
Pulled you to the ground  
Smothered you with kisses  
I thought, "I know what he misses  
About this crowd"

And I ask you  
Does your hometown care?

Throw us in the back  
Leave the driver to his wheel  
One more sick display  
I think I can swallow that pill

Every second guess  
Every street-cred test  
You think you must be passing  
With your ability at best  
Yeah

And I ask you  
Does your hometown care?
