

For Tension

Superchunk

I've got bruises from where you brushed against me
They feel good and I'm history
Here comes a shower of sparks
That will one day give us away

For tension
Guess what I use?
For tension
You can use me
For tension
Your attention
For tension your attention's all I ever need
Need
Yeah

Do something wrong, you must be joking
Do something right, I'm only kidding myself
You take a look down off the shelf
And change address and I can't help myself

For tension
Guess what I use?
For tension
You can use me
For tension
Your attention
For tension your attention's all I ever need
Need

For tension
Guess what I use?
For tension
You can use me
For tension
Your attention
For tension your attention's all I ever need
Need
Need
Need
