## **Amphetamine**

## Superdrag

You're the next local superstar Take a bow if you get this far Nothing's real baby make a move

Some expected groove Prove it to the world Now drink and be real This is the last time

Hard to conceal the flavor of strychnine Whenever you steal you make it the right line

You're the next disappointing boom Burning out in the same black room Nothing's real if you read the news

If you bled the blues Prove it to the world Now drink and be real This is the last time

Hard to conceal the flavor of strychnine Whenever you steal you make it the right line Rolling with some friends of mine Her love is an amphetamine
