

Sugar

Superdrag

Looking for a kiss that'll knock me out
Sugar numb my lips again
Cause I know the score
I know the score
Looking for a girl that'll stick around
That'll let me down slow
Cause I know the score
I know the score
Could it be you? I got nothin else to do
And I've got no thing to lose
Give me a shot
Could it be real? I got nothing left to steal
And I'm too fucked up to feel
Give me a shot
Here I am give me what you got
Looking for a gas that'll get me high
That'll get me there fast
Cause I need the score
Looking for a girl that'll stick around
That'll let me down slow
Cuase I know the score. I know the score
Could it be you...
