

## Whitey's Theme

Superdrag

There's not an answer. expecting nothing impromptu  
I was the cancer but something cures me when you do me  
And if you don't know by now I'm never gonna show you how  
And if you don't know by now I'm never gonna show you how  
Or let you out of me

I like the places the way you're lacing them with me  
I dig the spaces cause there's a grace there I can see  
And if you don't know by now

Truest love!  
You are my intoxicating wish  
So much more to live for than my fist  
If I want to breathe with you, close my eyes and let you see ri  
ght through  
That's a scary thing to do  
It's the very thing I do. it's the very thing I do

Put me on a supersonic trip. every time you wake me with your l  
ips  
If I want to bleed with you, close my mouth and tell you that I  
do  
The truest lies are few. the truest lies are few  
But the truest love is you
