

Rough Knuckles

Supergrass

(yeah yeah yeah yeah yeah)

Lost sight

Lookin' for a way out

It's a good time, to get your head together

Blood shot

Don't wanna see you washed up, in a hotel I'll come up and check you out

This is the call, wake up boy, you're on your own

Get out your guns, you little outlaw on the run

Lucile, she wouldn't take a fall,

She said you used to be a heartbreaker (heartbreaker)

There's no fun sleeping with a shot gun

Put your head back, you'll live to meet your maker (maker)

This is the call boy, wake up boy, you're on your own

Get out your guns, you little outlaw on the run

When you're out in the cold, stoned, can't feel at all

So don't throw it all away cos you'll never get it back

Lost love, on the great adventure

So pick it up and put it back together

When you're knocked down, it's hard to understand

When opportunity is holding out a hand

This is the call boy, wake up boy, you're on your own

Get out your guns, you little outlaw on the run

This is the call boy, wake up boy, you're on your own

Get out your guns, you little outlaw on the run
