

# When I Needed You

Supergrass

Ever wondered how we all get through  
Maybe someone's watching over you  
All the shit that we face everyday  
Somehow works itself out anyway

In the back of a stolen car  
Doin' eighty with the headlights off  
That's when I needed you

Ever wondered how we all get through  
Maybe someone's watching over you  
When the ground is falling fast beneath  
You somehow find yourself back on your feet

In the middle of a shady bar  
Broken bottles flying through the air  
That's when I needed you

Out of my sorrows  
Livin' out hollow steel  
I look through old photos  
For hours and hours

In the back of a stolen car  
Doin' 80 with the headlights off  
That's when I needed you

Oh, oh, oh, oh oh  
That's when I needed you
