

Burning ends in the situation  
Miss communication leads to complication  
Born, torn  
How do I feel huh  
My redemption's the best intentions  
I'm not degrading, anticipating  
And why this guilt you hold  
Cause I'm not here to be your saviour  
No favours  
Trust me, I'm not here to taste your burning soul  
I'm not invading or self restraining  
I hope I run things right  
Can you scream like I do  
Can you smell fear I do  
Can you break from my views  
Can you feel my pulse
