## **Dead Man's Blues**

## Supertramp

Goin' through my life, day by day Wonderin' why and what road it'll take Sometimes low and sometimes high Tryin' find a reason to live by

Well I've been seaching far and wide Over the water beyond the sky And I've been watching the moon above Smiling down at me, what's he thinkin' of

What's he thinkin' way up in the sky
Bet he could tell me where my future lies

There ain't no promise, or guarantee
Ain't no wisdom being laid on me
And it's a low down dirty shame
But I gotta find the answer just the same

I ain't foolin' around
Nobody cares
I got a feelin'
Oh I'm going to find it ...
Uhuh
Woo hoo hoo

Well I've been playin' the Dead Man's Blues And now I need a drink, it's going to be on you The day of judgement ain't far away But who'll be the judge, it's hard to say... Mnnn.. yeah that's hard to say...
