

God on the Go

Support Lesbiens

On and on, on it goes
stayed too long, it's all I know
take me home it's what I need
all too strong you got to plea
gets in to your soul, they wanna steal it
I got to cross that bridge and guarantee with
guardians or ghost's don't want to be them
and I got god, in the goal, don't wanna see him
I'm here far too long, got to go

eventually I'm going to be a modern saviour underneath
eventually I'm going to be a modern saviour you will see

gets in to your soul, they wanna steal it
I got to cross that bridge and guarantee with
guardians and ghost's, don't want to be them
and I got god, in the goal, don't wanna see him
I'm here far too long, got to go
stayed too long it's all I know
have to roam it's what I need
with this song I got to plea
gets in to your soul, they wanna steal it
I got to cross that bridge and guarantee with
guardians and ghost's, don't want to be them
and I got god, in the goal, don't wanna see him
I'm here far too long, got to go

eventually I'm going to be a modern saviour underneath
eventually I'm going to be a modern saviour you will see
I can't guide those, but you'll always be my supernova
I can't hide this, but you'll always be the only one for me
