

Once, to never be in the sun
I dole on my happy one
Just want my head to stay on
In a spin, what never begins begins
But i will be in the sun
The situations blows me under

The story i get to wrong, brother
Never see justice done, waiting
Holding my head down long, buddy
A mother, to hate you, it's too sacred

Endeavour to know about you
Stayin' open with you to love me new
Say everything or wanna die
Say you don't believe me, easy now
More i wanna be in love with you
Want me, we're needing

Once, To never be in the sun
Just Tell me it can be done
Struggling my way to stay on
It's a sin, what never begins begins
But i will be in the sun
Adulations blows like thunder

The story i get to wrong, brother
Never see justice done, waiting
Holding my head down long, buddy
A mother, to hate you, it's too sacred

Endeavour to know about you
Stayin' open with you to love me new
Say everything or wanna die
Say you don't believe me, easy now
More i wanna be in love with you
Want me, we're needing

The story i get to wrong, brother
Never see justice done, waiting
Holding my head down long, buddy
A mother, to hate you, it's too sacred

Endeavour to know about you
Stayin' open with you to love me new
Say everything or wanna die
Say you don't believe me, easy now
More i wanna be in love with you
Want me, we're needing
