You think you've got a problem  
Baby, you ain't think enough  
At least I know who my  
At least I know who my friends are  
At least I know who my

Yeah man you think that you've got bugs  
longitude  
You've already done too much

Even with your resolutions  
Hypocrisy is digging in  
You don't need a point of reference  
You just need to be afraid  
Even though I can't believe you  
It's not like I don't want to

Anyone can make excuses  
At least I know who my

At least I know who my  
At least I know who my friends are
