

May You Never Be Alone

Susan Boyle

We will meet again beneath the star
I think of you each day
I feel you close wherever you are
I know you'll find your way
Let the Christmas lights warm your heart tonight
Let them guide you home from the cold
May your home comfort you at this time of the year
may you never be alone

There's a place I go a horizon of home
where all our dreams are saved
I can feel you close wherever you are
til you're in my arms again
Let the christmas lights warm your hear tonight
let them guide you home from the cold
May your hope conquer fear at this time of the year
may you never be alone.

Let the christmas lights warm your heart tonight
let them guide you home from the cold
May your hope conquer fear at this time of year
may you never be alone
May your hope conquer fear at this time of the year
may you never be alone.
