It Hurts Me Too

Susan Tedeschi

You said you were hurting
You almost lost your mind
Cause the girl you love she hurts you all the time
When things go wrong. go wrong with you
It hurts me too

You love her more when you should love her less
Why do you pick-up behind her?
And I know you pick-up all her mess
When things go wrong. go wrong with you
It hurts me too

Oh so you better leave that girl
Oh you better put her down
Cause the girl you love
She hurts you all the time
When things go wrong. go wrong with you
It hurts me too

Now she loves another man and boy I love you
But oh I know that you love her
I always see you stick to her like glue
When things go wrong, go wrong with you
It hurts me too

Oh so you better leave that girl
Oh you better put her down
Cause the girl you love
She hurts you all the time
When things go wrong. go wrong with you
It hurts me too
