

# This Is the Place

Susanna Hoffs

Everything is coming together  
I think I like it right here  
Float on down, you'll be light as a feather  
You'll like it right here

Though I've lost and gained  
I don't need the meaning  
And if you feel estranged  
This is the place

Kids are swimming in the sun  
I think they like it right here  
Every day I wake is day one  
I like it right here

Though I've lost and gained  
I don't need a reason  
And if you feel the same  
This is the place

Feeling displaced, low down or erased  
Never a better time to escape  
So come on, it's plain as day to see  
Oh come on  
I want you here, I want you near to me

Everything is coming together  
Float on down, you'll be light as a feather  
You'll like it right here

Though we've lost and gained  
We don't need the meaning  
We will grow and change  
Through every season  
And if you feel the same  
This is the place

This is the place  
This is the place  
We've found our place
